MEETING IN GRANADA

During the month of May 2023 the third international meeting of the project took place in Granada, where the results of the teacher trainings were evaluated. The digital platform of the project was also officially presented. Finally, the partners of Curvapolar and Gimnazija Celje - Center shared their experience in the mobility of Granada, as well as their impressions regarding the Edularp developed by Curvapolar and made recommendations for the rest of the partners for their mobilities and the creation of Edularps.

Multiplier Event in Granada

In April, Neotalentway held a project dissemination event for 50 teachers. In this event, teachers learned about the objectives of the project, the developed modules and a presentation of the main current educational innovations.

In addition, the teachers had the opportunity to get to know the Edularp developed by Curvapolar, as well as to learn the basic notions to use the Edularp methodology in their teaching practice.

MEETING IN CELJE

The 4th international meeting of the project featured several key updates: Neotalentway presented results from evaluation questionnaires of the toolkit and emphasized the need for translations into Italian, Spanish, Slovenian, and Romanian.

Curva Polar reported on the event from September 11 to 15, involving Celje school students, and shared dissemination efforts via social media.

Partners discussed the final student mobility from Avellino to Celje, set for November 13 to 17, and agreed to finalize the program via emails or Zoom. Activities include escape rooms and edu-larp sessions, with videos to be shared on the platform.

Each school will test their edu-larps with 20 new students and 2 new teachers, guided by previous participants. Curva Polar will compile video/photo materials, and PUB will monitor website activity. Convitto P. Colletta will provide evaluation tools and a National Report template.

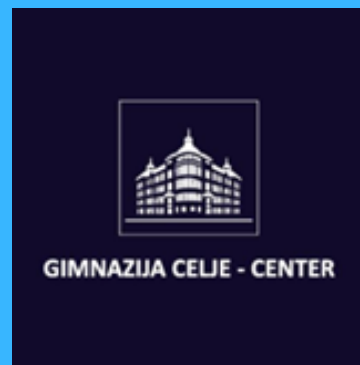

Project Platform

On the platform you will have access to all the project materials, such as the Methodological Toolkit, the Edularp activities and the Handbook.
